Thanks, and interesting table they put together. It appears to be comprehensive at this glance. It does not establish a correlation to the issues we highlighted from the program review, but I guess they will do so in later drafts.

Yes we talked about sending a letter, especially in light of establishing a continuity before Tim's retirement.

Let's discuss this further and I will get a draft going that takes as much into account of your intentions into the letter.

I am hoping I can get a couple of decisions (PGV Permit Mod. and Ca. Geo. Class V) drafted out by this week or next.

George

Subject: FW: Working Draft - Reg Update

Hi George,

In addition to the aquifer exemption update they are doing, I spoke to Tim about the importance of addressing the UIC program issues flagged in our 2010 review. Jerry is working on this, and sent the following msg/table as a rough draft. While this is helpful as a start, I think we should

probably send a letter from me to DOGGR reiterating the importance of their follow-up on the UIC program issues. I had mentioned such a letter to Tim when we spoke in December, so it would not be a surprise.

Let me know your thoughts.

David

Hi David,

Please find a copy of a working draft of our UIC regs update. This is a rough draft and please consider as work-in-progress and confidential. Thank you.

Jerry
